Hosting Costs

The possibilities are extensive — all for €2.50 per month in hosting fees.

During your first month, you will only be charged for the weeks your site is active. For example, if you start in the second week of the month, you will only be charged for the remaining three weeks.

Hosting fees are automatically charged, invoiced, and collected monthly in advance on the first day of each month. You may cancel your site at any time on a monthly basis.

If the hosting fee has not been received by the third day of the month, the site will be temporarily disabled until payment has been received.

Please note that disabled sites remain billable until they are permanently deleted. The site owner is therefore responsible for paying the hosting fees for as long as the site exists, even if it is disabled.

Transaction Fees and Service Costs

A transaction fee of 10% per order applies, in addition to a fixed service fee of €0.50 per order.

Transaction and service fees are automatically deducted per order.

In return, you receive a professional sales website, suitable for processing both standard orders and catering requests, with continuously expanding features. All integrations with a payment provider are fully configured.

Omncloud BV is the owner of the trade names Dishcalculator and Dishtakeout. These names may appear on your invoice and in other internal or external communications.
